

USA Child / Booster Seat Requirements

The safety of our customers is of the utmost importance to Apollo. Therefore we have developed a **best practice** approach to Child Restraints. We aim for the **best safety** (not just recommended levels) for our clients' children.

Clients can rent Child Restraints (must be pre-booked) from Apollo for \$40 per rental. It is the client's responsibility to fit them to the vehicle (our branch staff are legally unable to fit them or advise on how they should be fitted) and we recommend the following guidelines below:

Capacity												
Vehicle	Happy Explorer Sunrise Escape	Eclipse Camper*	US Wanderer*	Elite Traveller	Euro Tourer							
	Either Or Or	Either Or Or	Either Or Or	Either Or Or	No child restraints permitted							
Baby Capsules												
Baby Seat	1	-	1	2		-	1	2	-	1	2	-
Booster Seat	-	1	1	-	2	1	-	2	1	-	2	1

*Dinette table will require lowering to install baby/booster seat. Dinette table will only lower to seat level. Due to this other passengers will not be able to travel in the dinette area. All passengers must wear seat belts whilst the vehicle is in motion.

	Baby Capsules (Not Permitted)	Baby Seats	Booster Seats
Weight	0 to 9 kg (0 to 20lb)	9 to 18 kg (20 to 40lb)	14 to 26 kg (40 to 60lb)
Age	0 to 6 months	6 months to 4 years	4 to 7 years
Length	up to 70 cm (27 inches)	over 70cm (27 inches)	up to 140cm (55 inches)

No child restraints are required for children over min. 140 cm (55 inches),
OR over min. 26 kg (60lb)
OR 8 years of age (on average)

PLEASE NOTE: All child restraints used in the USA must comply with current USA standards. Most overseas child restraints do not comply with these standards and cannot legally be used in the USA. This includes but is not limited to restraints from countries such as the UK.
